RE: Inactive Use of EPA ID Number

Dear Generator:

The New Jersey Department of Environmental Protection and Energy has reviewed its database of hazardous waste generators. Based upon our review, your facility has not used the above identified EPA identification number for the last three years.

If your facility does not generate hazardous waste and you wish to deactivate your identification number, please contact the Bureau of Advisement and Manifest in writing at the address listed below:

New Jersey Department of Environmental Protection and Energy  
Division of Hazardous Waste Regulation  
Bureau of Advisement and Manifest  
401 East State Street, Fifth Floor, East Wing  
CN 028  
Trenton, New Jersey 08625

If your facility generates and/or stores hazardous waste, but never in quantities greater than 100 kilograms of listed or characteristic waste (less than 220 pounds); or 1 kilogram (less than 2.2 pounds) of acutely hazardous waste; or 1,001 gallons of waste oil in any one month you may wish to deactivate your fully regulated generator number and have it replaced with a small quantity generator (NJX) number. Applications for the "NJX" number can be obtained by calling Ms. Becky Bonfonti at (609) 292-7081.

Please be advised that should you decide to retain your fully regulated generator number your facility will be subject to inspections and fees pursuant to N.J.A.C. 7:26-4A. Should you have any questions concerning this matter, please call me at (609) 584-4200.

Sincerely,

  
Wolfgang Skacel  
Section Chief, Hazardous Waste Section

Gentlemen:

We are currently listed on the EPA Hazardous Waste Generator list. We had a one-time disposal of lab chemicals on 7-14-82 that are listed on the EPA Hazardous Waste list. We generate no hazardous waste and will not in the future.

We presently receive annual and quarterly reports from the Federal and State EPA. Since we do not generate Hazardous Waste, this is unnecessary paper work. Therefore, we request that our name be delisted from the EPA Hazardous Waste Generator list.

Thank you.

Gentlemen:

On February 28, 1985 we requested a delisting from the EPA Hazardous Waste Generator list, per copy enclosed.

Today we received a notice from your Washington, D.C. office (copy of which is also enclosed), claiming we have filed a Notification of Hazardous Waste Activity.

WE REPEAT -- WE DO NOT GENERATE HAZARDOUS WASTE.

Please correct your records.

Re: Hazardous Waste Generator Id. No. NJD002452340

Dear Dr. Baker and Mr. Coolick:

This company has been examining the status of any environmentally related permits issued to it in connection with preparing a filing under New Jersey's Environmental Cleanup Responsibility Act. In the course of that examination we have come to realize that approximately five years ago this company responded to an inquiry made by state and federal agencies concerning the use of chemicals. Apparently this company's good faith response to its use of chemicals was interpreted as an application for a hazardous waste generator's identification number. This facility has not and continues not to generate hazardous wastes in excess of 100 kilograms per month, the regulatory threshold under the New Jersey hazardous waste regulations. Further, we have never considered our facility to be a generator of hazardous waste and accordingly have never utilized that number. Accordingly, we respectfully request that you examine your records to verify this understanding.

We appreciate your attention to this matter.

Very truly yours,

Peter H. Blank
